VENEZUELA.

Advices from Puerto Cabello to Jaz-26 have been re-

Advices from Puerto Cabello to Jan-26 have been received.

The repose of the country not only continues undisturbed, but its resources and mineral productions are being developed to an astonishing degree. Des woods and different varieties of timber are coming in from the country in large quantities, to be shipped to England, where heavy contracts have recently been made, and a permakant market established.

Some fine specimens of copper and silver one have been brought in from the mountain region, of pure quality, and the veins of each inexhaustible. The agricultural prospects of the country are of the most encouraging character particularly cotton, rice, tobacco, and though last, not best, the sugar cane, which is receiving general attention and the fostering care of the Government.

Coffee is coming in in small lots from the interior, and ammends high prices for the United States and the Eugenn markets. The "discorrande" or washed, suited for Europe, sells at 12 2 13 2c, per 1b, and will one long advance further. The "frillado" or unwashed coffee sells at 12 2 13 2c, per 1b, and will one long advance further. The "frillado" or unwashed coffee sells at 12 2 13 2c, per 1b, and will one long advance further. The "frillado" or unwashed coffee sells at 12 2 13 2c, per 1b, and will one long advance further. The "frillado" or unwashed coffee sells at 12 2 13 2c, per 1b, and will one long advance further. The "frillado" or unwashed coffee sells at 12 2 13 2c, per 1b, and will one long advance further. The "frillado" or unwashed coffee sells at 12 2 13 2c, per 1b, and will one long advance further. The "frillado" or unwashed coffee sells at 12 2 13 2c, per 1b, and will one long advance further. The "frillado" or vashed, suited for Enderthy and the fourther than the country and the fourth and the f

We have no American vessels in port, but saveral are ally expected. There are several vessels for Europe taking coffee, indigo, dyewood, and timber of various less and of the hardest grein, which admit of an ex-taintiely clear and beautiful polish. Exchange on Eng-ind, 36; currency per pound sterling. On France, 4.04 fancs for \$1 currency.

FROM St. THOMAS.-By the arrival of the schooner Flying Dragon from St. Thomas, which place she left on the 6th inst, we learn that the cholera had nearly disappeared, and it was expected that the usual health of the leland would soon be restored.

FROM AFRICA -The brig Reindeer, Capt. Moulton, arfived yesterday morning from Ambuz and Loando. Her captain reports that the U. S. ship Constellation, Capt. Hayo, sailed from Loando on the 15th of November for St. Helena. The U. S. ship Marion was off the Congo River

The larger portion of the British squadron had been orered to the North Coast, in consequence of some disturbce among the natives.

THE VOICE OF THE NORTH.

NO SLAVERY EXTENSION. OHIO MOVING.

Correspondence of The N. Y. Tribune.

CLEVELAND, Friday, Feb. 16, 1854. CLEVELAND, Friday, Feb. 16, 1854.

An upheaving of the masses is just commencing in Ohio
upon the subject of the proposed Nebraska outrage. For
a while the people were so paralyzed at the enormity and
sudacity of the attempt that they had no tongue to speak. They could hardly believe it possible that respectable ators and a united Administration could be guilty of the perfidy implied in the effort to repeal the Missouri Compromise—a Compromise so long a quiesced in by both North and South—and which all honorable men of both sections of the country have hitherto considered themselves bound

to regard. But the attempt has been made and persisted in; not made (to its honor be it spoken) by any high toned Southers man, but by a Northern traiter, warmed into existence by the North, and now seeking to inflict upon her a deadly

Presidential aspirations and a Southern plantation can only account for his perfidy.

But in this attempt we see clearly evinced the aggressive and horse leech spirit of Slavery, ever making forays upon free soil, and ever crying, "Give, give!"

Ohio, first born of the ordinance of '87, and to whose anti Slavery provision she owes her present glory and

anti-Slavery provision she owes her present glory and greatness, denounces this base attempt to curse with Slavery's blighting influence near half a million of square miles of free territory—a territory solemnly consecrated to Freedom, and set apart as a heritage for "our children's children to the latest generation."

The strong spirit of opposition to the Nebraska bill is heard from almost every mouth, and is seen in the public meetings held all over the State. In Northern Ohio, following the meeting in this city, Stark County (strongly Democratic) spoke on the 4th of February by a meeting at Massillon, one of the speakers at which was Hon. D. K. Carter, former Democratic M. C.

Geauga and Trumbull Counties held meetings on the 11th—the tormer at Cherdon, the latter at Warren. The same day a meeting was held at Canal Dover, in Tusca.

at Massillon, one of the speakers at which was Hon. D. K. Carter, former Democratic M. C.
Geauga and Trumbull Counties held meetings on the 11th—the former at Cherdon, the latter at Warren. The same day a meeting was held at Canal Dover, in Tascarawas County, and about the same time one at Painesville, in Lake County.

Meetings have been called in Summit and Lorain Counties. In the latter three of the Democratic and three of the Whig County Committees uniting in the call.

The center of the State has spoken by a meeting at Columbus on the 14th, which, among other things, recommended a State Convention, to be held at the place on the sth of March.

Of the ten who called the meeting at Columbus (all of them being citizens of standing and character) six were old line Democrats and four Whigs. The meeting was presided over by the Hon. Jos. Swan, a Democrat.

Among its recolutions is the following:

Besteved. That this subject rises above all party politics and politicians: that it involves questions touching good latth—the solemning of contracts—the integrity of public men; that the People both Both and Seoth are satisfied with the Missouri Compromise—not a volve has been raised against it during the existence of more than one whole generation of men—that the attack now made upon it has not come from. the People, but has been sprang upon the People were made our first solemn appeals to the statemen of the country to defeat this unjust bill; and if they prove faithless, we recommend that an arrival, be at once made to the People, not only upon this will, but to reconsider the whole subject of comprunises.

One noticeable fact concerning these meetings is, that old party lines are broken down and that men of all parties are found side by side battling for the right. Occasionally (as in this city) a postmacter or some office-holder is found who, fearful of political decapitation if false to the powers at Washington, seeks to stem the current of popular indignation now setting so strongly against this outrage and its a

NEBRASKA IN THE INTERIOR .- Of the 203 electors voting at the recent special election in Ledyard, Cayaga County, 202 signed a remonstrance against the Nebraska iniquity. Thus it seems there is but one friend of Slavery extension in that town, and this, we doubt not, may be taken as an index of public sentiment upon this question in the rural

Mr. Seward's Speech, an abstract of which we published on Saturday, was a powerful and masterly review of the whole question involved in the Nebraska controversy. No one, whatever may have been his previous rejudices in regard to the orator, can deny the great jower and force of his arguments on the binding nature of compromises generally. The pretense that the Compromise of 1850 can, or was intended to, subvert that of 1820, is demolished. The miserable subterfage of justifying this breach of faith, under the pretense of permitting territories to decide for themselves, that is, to suffer a mere handful of slaveholders to fasten Slavery upon future millions, is shown up in a strong light. It is an able and unanswerable address, and cannot fail to exert a great influence, and to be widely read.

[Boston Atlas.]

DEATH OF W. N. McLeon.—Under our obituary head will be found a notice of the death of the Hon. W. N. McLeod. The deceased, who has been for many years a resident of Michigan, was a prominent member of the legislature of 1842, and has been at different times the beambent of many important local offices, such as Prosecting Attorney, Justice, Commissioner, &c. His natural effs were of the first order, and his attainments and education were both singular and unusual.

The mortality among children has been:

was 403; in 1854, 537. Per cent under 10; in 1853, 36; in 1854, 63. This is a very large number of juvenile mortality. There were in all 84 deaths in the Public Institutions last week, against 43 last year. This shows a very bad condition of health among those in charge of the City charities.

MARINE AFFAIRS.

THE THREE BELLS

We understand that, in consequence of the storm, the Three Bells, Capt. Crighton, did not leave the harbor yesterday afternoon, as was intended.

ARRIVAL OF THE GEORGIA.

The United States mail steamship Georgia, Capt. McKinstry, arrived at this port Sunday afternoon from Hampton Reads, Virginia. It will be recollected that she was disa-bled on her last voyage to Aspinwall, and put into Norfolk in distress. Her bow, at the upper deck, is considerably

THE CALIFORNIA STEAMERS. The Star of the West, North Star and George Law, sailed yesterday afternoon for San Juan and Aspinwall. The Star of the West carried out six hundred and forty passengers for San Francisco.

THE AFRICA. The British steamer Africa still remains ashore on the Jersey mud flats. She can be distinctly seen from the

THE CHAUNCEY JEROME. The Chauncey Jerome was abandoned on Saturday afterncon. The schooner Excelsior, was sent down yesterday, (Monday) by the Board of Underwriters, to bring away the steam pumps, which were removed on Saturday. The cargo is mostly removed except the iron. The vessel will

probably go to pieces in a few days.

FIRE IN CHAMBERS ST. On Monday morning about 111 o'clock, a fire was discovered in the upper part of the building No. 57 Chambers st. It originated among a heap of loose papers, but was extinguished before much damage occurred.

On Monday morning a fire was discovered in the office attached to the lumber yard of H. W. Devoe, corner of Stanton and West sts. It was extingui-hed by the firemen of the district. Damage about \$50.

FIRE AT WEST FARMS.—About 21 o'clock on Sunday afternoon, Greec Episcopal Church, in the village of West Farms, Rev. W. Rodman, pastor, was discovered to be on fire. By the exertions of the firemen and clitzens of the village, it was extinguished, with but trifling damage to the building. It originated in the vestry room from a store which had been recently placed there and was caused by which had been recently placed there, and was caused by a defect in the chimney into which the stove pipe entered.

CORRECTION.—In the New-Orleans market report (of the 17th inst.,) published in our morning's edition to-day, the stock of Cotton in port should have been stated at 261,000 bales, instead of "609,000."

Tonsano is Onio.—The town of Harrison, O'alo, twen to miles north-west of Cincinnati, was visited by a turrible tornade on Tuesday last. One man was blown out of the street and landed in a lot. Bays of wheat were blown out of a wagon. Slicks of timber were whirled through the air like feathers. There is now a large scantling or joint sticking into the gable and of a frame building. 20 feet from the ground. It had been taken up by the wind and carried along endwise with such force as to drive it through the frame and stick there. The Presbyterin Church was unroofed and the gable end demolished. There were were about fifty dwell ngs, stables and shops, either totally destroyed or badly injured. The storm, however, passed over that part of the town where most were small buildings. The entire loss will not exceed \$25,000.

FRANCIS CALLAGHAN left his home in Little Falls, N.Y., hast November, to peddie lace, and has not since born heard from by his family, who fear some serious evil has befallen him. He was of slender frame, medium high, sendy complexion, very talkative, and had a sear under the right eye. Any uldings of him will be thankfully received by his wife, Agues Cailaghan, at Libert Market and the serious s tle Falls aforesaid.

CITY ITEMS.

UNCLE TOM'S CARIN, at the Sowery Theates, 7 P. M. VARIOUS ENTERTAINMENTS A Formous and Precing, Museum. One Cherry's A Wood's Minsterlas. Schlopfalma.—44 Repository, Brockley's Operation Simsterlas.—Schlopfalm.—55 8 Ways, 7 P. M. New York Almentral that Carefula.—75 Sewery 7 P. M. Sto Plaint Ventul Loquinal & Surveyant Institute. 550 Sway Thanks of Broader's Broadway Menagers.—Animals—57 Bway P. A. M. to duck. Inspection of A. M. National—58 Products of A. M. to duck. Bannand's River Nils and Highly Charles 58 A. M. to duck. Bannand's River Nils and Highly Colleges of A. M. to duck. William Serger Street Nils and S Rev. E. H. CHAPIN on Sunday evening preached in favor

of the Children's Aid Society recently organized in this

City: whereupon a collection was taken up in the aid of

said Society, amounting to \$560. The Rev. THEODORE PARKER, than whom there is hardly a more pungent or forcible speaker in the country, will discourse at the Tabernacle this evening upon the Nebraska iniquity. Those whose nerves are not so weak as to be dis-turbed by plain speaking upon Cotton theology and Cotton politics, will be likely, we think, to be there to listen. Whatever may be thought of Mr. Parker's creed upon other subjects, none but the most inveterate hunkers and officeholders will question his orthodoxy upon the great question new before the American people.

HORTICULTURAL SOCIETY .- The Conversational Meeting of the Horticultural Society which was to have been held last evening was adjourned to Monday evening next, in consequence of the storm.

THE COST OF LIVING .- The following table shows the prices of food and fuel in this City for the past half-dozen years. It has been prepared with great care, and we think its figures may be relied on as correct:

The Board of Aldermon last exching concurred in approprinting \$2,500 for the celebration of Washington's birth day, and appointed a Special Committee on arrangements.

They received a communication from the Counsel to the Corporation in answer to a resolution asking legal information in regard to the powers of the Board. Mr. Dillon is of opinion that under the new Charter all papers involving the expenditure of mongy must originate in the Board of Councilmen. The Board adjourned at 6 o'clock to attend the dinnes given by the Councilmen.

THE FIREMEN.—In spite of the desperate storm last night, the firemen were out in force to receive the visiting Company from Baltimore, but up to 11 o'clock nothing had been heard of them-the trains having been blocked up

by the snow.

P. S.—The Baltimore Firemen arrived at Jersey City at 113 P. M. in the Express train. The Committee of No. 14 were in waiting to receive them, and escorted them to their

The Randall Island Boys will celebrate the 22d in grand style, by an oration and other exercises. They will also be visited by the Baltimore Firemen. The boys will display all their new banners on the occasion. Mr. Draper and other Governors will be present.

THE SAN FRANCISCO INQUIRY.—Sergeant-Major Graham and Corporal Smith, and the Engineer, were examined yesterday, but nothing new was elicited. Capt. Watkins is expected to arrive to day.

FORGING BANK CHECKS .- A young Englishman named Wm. T. Carter, employed as assistant book-keeper in the dry goods importing house of Lottimer, Large, Ellery & Co., was yesterday arrested, charged with forging the name of the firm upon two checks, one drawn on the Bank of America for \$200, the other upon the Bank of the Republic for \$350. The forgeries were committed in the early part of January, and the accused left the employ of the firm on the 21st of that month. He was taken before Mayor Westervelt and committed for trial. He confessed his guilt to the

ACCIDENT ON THE NAUGATUCK RAILEOAD .- The first train from Winsted yesterday morning met with a serious accident about three miles this side of Naugatuck. The engine and tender were thrown off the track down an emankment about twelve feet into the river, in deep water. killing the engineer, and slightly injuring the fireman. The engine ran off the track on a curve in the road on the opposite side from the river, running some ten rods over the ties, when it brought up sgainst a projecting rock, shattering and tearing many portions of its iron work. From thence, about five rods, it plunged over the wall into the river. The fireman was pitched entirely over the mass of broken machinery head foremost into the river. Being a good swimmer, he came up and swam to the shore. The ngineer was discovered on the surface of the water, and after a few slight struggles sank, it being impossible to reach him. He was taken out in about twenty minutes.

Though the fireman escaped, his watch, which was in his pocket, was tern to atoms. Many portions of it were picked up on the road after the engine struck the rock and before it plunged over the bank into the river. Altogether it was a most fortunate escape for the passenger cars, which broke loose and passed on in security.

TICKET SWINDLE ON CALIFORNIA EMIGRANTS.—Yesterday afternoon nearly fifty young men who had been swin dled out of from \$75 to \$200 each, by the purchase of worthless tickets for California at the office of William M. Young & Co, Broadway, corner of Beaver st, appeared before Justice Bogart, at the Lower Police Court, to prefer charges against Young and his confederates, or to take such other steps as would insure either their passage to California or the return of their passage money. Most of the young men are from the far West, and many are without funds either to procure passage to the gold regions or for home. Daniel Mahone, of Chicago, Ill, stopping at No. 8 Chestnut st., made a lengthy affidavit before the Magistrate, Chestnut st., made a lengthy affidavit before the Magistrate, detailing the circumstances under which he and seven of his companions from Chicago were inveigled into Young's office and there fleeced out of \$1,140 by Young, his runners and confederates. Four of the men who were in the office at the time these fraudulent tickets were purchased, represented themselves to be agents and part owners of the steamship North Star, and the tickets were purchased for passage in that vessel. These four, as we noticed yesterday morning, were arrested and are now awaiting examination, but Young, the "head and front" of

the offenders, is yet at large, although a warrant for his arrest has been issued. It is feared that he has gone to Eng lend in the steamship Pacific, with about \$15,900, which had been obtained by the sale of spurious tickets, in his poses seion. Most of the tickets held by the victims, mention the name of the ship in which they were to sail; in some, however, the name is left blank. The days of sailing set down are the 19th inst and 5th of March next. An examination of the prisoners will take place shortly.

FATALLY STABRED IN A DANCE HOUSE .- The negro Francis Johnson who was stabbed on last Tuesday night at a dance house in Anthony, near Church st, by another negro, died on Sunday night at the New York Hospital of his wounds. Coroner Hilton yesterday held an inquest upon the body when evidence was adduced showing that about thirty five colored persons were dancing at No. 57 Anthonyst, on the night in question when a difficulty took place between the deceased and several other colored men a fight ensued in which the deceased was stabbed in the left side. A witness named Thomas Pernell testified that he witnessed the affray and saw one Aaron Jackson take a knife from his pecket and stab the deceased in the side. Another witness, named James Dorsey, stated that he was present, and saw Jackson with a knife in his right hand. He made a blow at deceased with his left hand, but missed him; he then plunged the blade of the kuife into his left side. A witness, named Richard Arthur, testified that, while walking with Jackson, a few days since, the latter told him that he had stabbed deceased at the ball on Tuesday night. E. W. Derby, M. D., of the New York Hospital, testified to having made a post mortem examination of the body of deceased, in which he found two wounds, which were the cause of death. The Jury rendered a verdict, that deceazed came to his death by a stab from a knife in the bands of Aaron Jackson, (colored) on Tuesday, Feb. 14, 1854. On the rendition of the verdict, a negro, named Edward Matthews, who had been arrested on suspicion of being the person who inflicted the fa al injury, was discharged from custody. Two of the witnesses were commit-ted, in order that their attendance at Court might be secured Jackson has not been arrested. Johnson the decensed, was a native of Baltimore, 28 years of age.

SUICIDE AT GREENWICH, CONN .-- On Sunday, about noon, a German, named Frederick Gotelieb Faber, a carpenter, residing at Greenwich, Conn , committed suicide by cutting his head nearly off with a razor. He had shaved himself and gone up to his room, just before dinner; but not coming out at the call of the bell, some one went up for him, and found him dead, and lying in a pool of blood. He was a respectable, temperate man, about 25 years old, and an excellent workman. The only cause assigned for the act, is that he had recently visited Germany, expecting to get some property, but had been disappointed

The Court of General Sessions was engaged yesterday in hearing the summing up of counsel on either side in the case of James Saunders, whose trial for riot on the Fourth of July has occupied the attention of the Court for the past week. The evidence was concluded on Saturday. The Recorder's charge to the Jury will be delivered this

To the Edward The N. V. Tribune.

Sin: We perceive that our names have been mentioned in connection with a proposed reorganization of the management of the Crystal Palace. We have a high regard for the creeent managers, but their late report informs us that the Association, besides sinking its entire capital, is in debt to the extent of \$125,000. We have little faith in our ability to raise the dead. We are not candidates for the management in question.

Your York, Feb. 2°, 1254.

Suppers Death —An Irishman, 50 years of age, named John Fitman, was found dead in the cellar of No. 36 Cherry et., on Suckar night. An increase was held upon the body, and the Jury rendered a verdict of death from exposur; and intemperance.

DR. McCLINTOCK AND HIS FAMILY MEDICINES.-Wo copy the following from The Philadelphia Sunday Mer-

"Gur city, since the days of Henjamin Rush, has stood first on the Western Coutlinent in all that relates to the practice and science of medicine. Her medicine all scholars are known wherever a paper is real, and her faculty in the judement of the world, stand second only to the faculty of Paris. Among those men who by their learning and skill in the healing art, have given us the celebrity of which every Philadelphian is proud. Dr. McClintock, by general consent, has for years occupied a prominent position. As an author, an inventor, and a successful practitioner, his name is known here and throughout the length and breadth of the land. He has lately dischard to connection with a leading college in this city, but his sphere of neefulness will not thereby be leasened. The recipes for Family Medicines that his learning and experience have perfected, are hereafter to be compounded by skillful pharmaceutists, and of fixed to the public at large. We half this announcement as another evidence of the fixer evidence of the greatesty and should be made to the public at large. We half this announcement as another evidence of the pattern yield should be made to he practice of medicine has passed away, and Dr. McClintock's name will hereafter be first among the list of beneficial reformers." Our sity, since the days of Benjamin Rush, has stood first on the

EMPIRE CITY PIANO-FORTES.- Knowing that the EMPIRE CITY PIANO-FORTES.—Knowing that the generous public are ever ready to second the efforts of those who seek to furnish them with improvements of whatever nature, which saids to their interests or properties to the subscriber to avail himself of the many years of eaperience he has had a largely selling Flores of the most celebrated make, in the exection of an instrument in which the good points of others should be united, and he strament in which the good points of others should be united, and the same satisfaction will be given to the minds of others awared the same satisfaction will be given to the minds of others upon in-species. Amateurs and the profession are invined to call and examine these instruments. The trade supplied on the most liberal terms. Hearter Warters, Publisher of Music, No. 533 Broadway.

A GOOD MORAL LESSON.—The performance of "Uncle Tom's Cabin" and the "Hot Corn Girl," at Purdy's Temple of the Moral Drama—the National Theater, are calculated to do more good than all the fectures from the most eminent. We would recommend ladies and heads of families to go this afternoon, at 2 o'clock, with their children, and lisen to the truths of the "Hot Corn Girl," or te-night, and learn the religious precepts of Poor Old Uncle Tom.

Corn Gr., "or to night, and learn the religious precepts of Poor Old Uncle Tom.

[Advertuement I]

The Chemical Paper invented by Mr. Herbert, Chemist and Drugsist of Paris, is rendering such important services to humanity that it has become a duty to extend the knowledge of it to other countries by means of the press. The many efficacious properties of this paper have been incontentably proved by fifteen years' experience, in the cases of thousands of individuals, who have resorted to it by advice of the most eminent medical practitioners in Paris and throughout France. Its use is not only permitted, but prescribed in all the nepitals; and experience has new shown it to be su indispensable agent to combat, with the certainty of success, persisting infammatory cases of all kinds, especially chronic inflammation of the intestince pains in the bowels, causes of aerous celle, rheumatism, statics, lumbeap, pains of the loius, paralysis, weabness of limbs in yound children, &c. Besides the very important properties above enumerated, the Paper possesse others which enable it to be successfully applied in another class of affect ons, which, though of a less grave character, are nevertheless troublesome, such tagged and a less grave character, are nevertheless troublesome, such in fact, public attention cannot be too seriously invoked upon this medical discovery of which every one may reap the benefit upon application to the principal dragists of this city.
